

DAAP

TIER I UNIVERSITY

RESEARCH & INNOVATION

5 research capacity areas

Urban Systems

Health and Wellbeing

Creative Entrepreneurship

Digital Culture

Sustainable Living

DAAP is host of transdisciplinary Centers, Labs and Initiatives for research
DAAP leverages technology for high-impact research

The College of Design, Architecture, Art, and Planning Research & Innovation is built on the following points:

Transdisciplinary based

We interact effectively with multiple disciplines across campus

Systems based

We model evidence with data

Out-facing based

We partner with communities and industries for impact

Research Impact areas include:

- Disease management
- Health Equity
- Social Entrepreneurship
- Inclusive Communities
- Global Warming Mitigation

The University of Cincinnati is the leading R1 urban university in our region with unrivaled talent solving problems that matter. We are rigorously pursuing diversity, equity & inclusion in research and actively transforming society through game-changing knowledge and disruptive discoveries.
